

Muscle Wall is a resilient flood control solution that replaces thousands, if not hundreds of thousands of sandbags all while being quick, easy, reusable, reliable, and customizable. All traits that are essential for flood fighting solutions, yet hard to find in other competing products.

**468 SANDBAGS REPLACED BY 14FT MUSCLE WALL**

## TIME IS MONEY AND MUSCLE WALL SAVES BOTH

Filling and stacking sandbags is a messy, time-consuming, and labor-intensive process. The true expense of sandbags, once the cleanup, transportation, and other costs are factored, is \$2.50 to \$5.00 per bag. Most sandbags can't be reused because they are contaminated with gas, oils, and raw sewage.

To protect homes, businesses, and communities from the threat of floodwater sandbags can be used, but it requires the efforts of many people. When the threat is gone, home-owners and businesses are faced with the costly hassle of disposing of the heavy, contaminated sandbags. Muscle Wall can be set up quickly and easily by only a few of people, are reusable, and is effective.

## PROTECTING BUSINESS CONTINUITY

Big expenses during a flooding event come from the loss of business continuity. Businesses must remain shut down while repairs are made or flood protection methods are removed.

Muscle Wall, in one instance, was used to protect an office building from floodwater, and as a result the office was able to be back up and running the very next day. Other buildings in the vicinity were out of commission for months, costing thousands of dollars in lost revenue.
